

$9 = 45 \div \square$

$3 \times \square = 30\text{p}$

$190 - \square = 120$

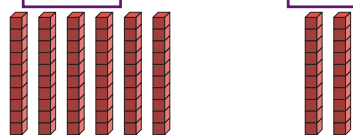

$$623 + \square = 643$$

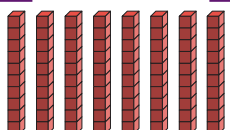

$$40 \div 5 = \square$$

6 ones + 2 ones =

8 ones or 8

\square tens + \square tens =

\square tens or \square

Circle the even numbers.

24	16	11
4	20	2
12	7	23
	19	

$$40 \div \square = 10$$

$$\square = 6 + 8 + 2$$

$$33 = 73 - \square$$

$$10 \times \square = 20$$

$22 \div 2 =$

$= 32 - 12$

Is this an odd or even number?

$= 20 - 18$

$$45 \div \square = 5$$

Circle the even numbers.

$$90 + 124 = \square$$

$$13 + 7 = \square$$
